

ABSTRACT

SUSAN MARGARETHA

Difference in attitude of male and female students of Christian theology towards pornographic materials. (Widya Risnawaty, M. Psi & Lianawati, Psi.); Bachelor Degree, Faculty of Psychology, Tarumanagara University.

Pornography is one of actual issues which is interesting to be studied, especially when linked to individuals who are exposed to religious doctrine. The aim of this research is to find out difference in attitude between male and female students of Christian theology towards pornographic materials. The total subjects are 328, consisting of 164 male and 164 female students. Based on the significance level (α) 0.05, the findings of this research are $t(328) = 3.662$, $p < 0.05$, using the score of significance 0.000. This concludes that there is significant difference in attitude towards pornographic materials between male and female students of Christian theology.
