The Correlation between Girls' Body Image with The Perception of Self Acceptance from Her Partner, (Dra. Fransisca Iriani, M.Si & Riana Sahrani, Msi.,Psi); Study Program of Psychology. Strata One Undergraduate, Tarumanagara University. (63 pages, P1-P4, L1-L41)

The purpose of this study is to describe about correlation between girls' body image with the perception of self acceptance from her partner. Body image is the picture, perception and representation of our own body and physical appearance. Perception of self acceptance from her partner is a process to identifying and interpreting of a good and satisfied that influenced by thought and feeling her partner. This non-experimental research, using the quantitative correlational approach and using the questionnaire of subjects from 200 girls. This research is analyzed by using the *Spearman-rho-correlation*. The result, $r(200)=-0.460$, $\rho=0.000<0.01$, means that there is a negative correlation between the girls' body image with the perception of self acceptance from her partner.

Keywords : body image, perception of self acceptance, girls.
