Motivation married woman and have children who decided to work; (Meiske Yunitree, M. Psi); Bachelor Degree of Psychology, Faculty Psychology, Tarumanagara University (57 pages, P1 – P3).

Nowaday there are many married woman and have children decided to work. Not only from a woman with low economic level, but also from high economic level. Woman want to work because of economic reason, but also to give self-confidence, feel free in economic, add friendship, to grow the self skill, to expand friendship, and to become a proudly model for children. A working woman or a working mother can cause positive and negative effect to their family and people around them. Husband support and communication with him have an effect in keeping the harmony life of the marriage. It will be better if the husband and wife also get support from neighbourhood, friends, and family. Researched have been done to five married woman and have children in Jakarta on August 25th, 2007 until September 23rd, 2007.
