Self Adjustment of Young Women (17-22 years) In Family Fatherless; (Henny E. Wirawan, M. Hum, Psi., QIA); Undergraduate Program In Psychology. Tarumanagara University, (81 pages; R1-R3; Appdx. 1-10).

Self adjustment is a action that people do with modify their behaviour so they can adapt for change or challenge in their daily life. The young women that leaved by her father will face many problem in her life. The problem is just like fatherless figure, financial problem, and negative perspective about man and wedding. The young women that well doing their self adjustment will able to face their problem after leaved by her father. This research was done to 4 female subjects who are between 17-22 years old. This research was done by doing an interview to the subject which had done for 5 months, since 24th August 2008 until 21th January 2009. The research show that young women will do self adjustment to face their problem after leaved by her father. The reseacrh also show that two subject was well doing their self adjustment so they can accept their own condition compared the other subjects after leaved by their father.

Key Words: Self Adjustment, Father, Young Women
