Role of Self-fulfilling Prophecy and Christian Religiosity on Physical Healing Process (Qualitative Studies in Individuals Experiencing Healing The Mystical Experience). (Yohanes Budiarto, S. Pd., M. Si. & Denrich Suryadi, M. Psi.). Bachelor Degree in Psychology, University of Tarumanagara. (103 pages, R1-R4, Appdx 1-Appdx 14).

Self fulfilling prophecy refers to a "false beliefs" of a situation which can generate a new behavior that makes "false beliefs" become true. The purpose of this study was to investigate the role the role of self-fulfilling prophecy and Christian religiosity on physical healing process. Mystical healing experience in this study was the healing that cannot be identified by human logic that also had judgement by medical experts. The data was taken by in-depth interview with three people, showed that all of them had self-fulfilling prophecy when sick until they experienced physical healing process. The process of self-fulfilling prophecy itself formed through the Christian religiosity that will foster beliefs, faith, hope, optimism to experienced physical healing mystical experience. All the participants have medical evidence before and after experiencing the mystical experience.

Key words: self-fulfilling prophecy, christian religiosity, mystical experience.
