Secondly the wife's marital satisfaction is undergoing a polygamous marriage (Dr. Fransisca Iriani Roesmala Dewi, M.Si and Riana Sahrani, M.Si.,Psi); Psychology Program. Strata One Degree Program. Tarumanagara University. Hlm.1-74, P1-P7.

Polygamous marriage became an interesting phenomenon to be investigated. The study was conducted to reveal the picture of marital satisfaction and find a second wife to undergo a polygamous marriage. To find out the picture of marital satisfaction in all three subjects of the study, researchers conducted interviews with the method of data collection and observation. Type of interview is used in-depth interviews (depth interview) to all study subjects. Observation in the study used to obtain data on physical appearance, attitudes, and behaviors when subjects performed the data collection. Interviews were conducted from May 2012 until June 2012 place of residence subject. The results showed that non-fulfillment of marital satisfaction in all three subjects in terms of aspects, factors and impact of a polygamous marriage.

Keywords: Satisfaction marriage, polygamy, the second wife
