Relationship Between Self-Concept With Hedonistic Lifestyle On Students In Jakarta; Dr. Riana Sahrani, M.Si., Psi., & Meiske Yunitree, M.Psi; Undergraduate Program of Psychology Faculty, Tarumanagara University, (i-xiv; 53 pages, P1- P3, L1-L54)

Abstract: Currently there are many phenomena of hedonic activities conducted by the students. Most students who perform such hedonistic behavior also have different self-concept on each individual. The concept of self plays an important role in the formation of the character and behavior of an individual. In this study, researchers have a hypothesis that there is a relationship between self-concept with hedonic lifestyle on students in Jakarta. Subjects in this study amounted to 372 students in Jakarta aged 17 to 25 years. This study uses hedonistic lifestyle measurement scale and self-concept measurement scale. Researchers conducted data analysis research using spearman correlation technique.

Keywords: self-concept and hedonistic lifestyle
