Dear!

I have offers from this magazine to publish the article. I need the article to be published in the journal and on the Scopus platform. Can someone let me know if this journal only publishes journal articles or also publishes Scopus articles?
I need the article in Scopus to be published.
I am grateful if anyone can provide me with information.

reply

SCImago Team

Dear Valmir,
Thank you very much for your comment.
All the metadata have been provided by Scopus /Elsevier in their last update sent to SCImago, including the Coverage's period data. The SJR for 2021 was released on 11 May 2022. We suggest you consult the Scopus database directly to see the current index status as SJR is a static image of Scopus, which is changing every day.
The Scopus' update list can also be consulted here:

participating in the discussion in this forum regarding which is more credible between seyboldreport.org and seyboldreport.net, can be done in a number of ways, including:
1. Check DNS LOOKUP to see which website domain name was registered first, and contact information details, it can be assumed that a domain name that is registered first and has clearer contact information will have better credibility. Check at <https://www.whois.com/whois/seyboldreport.org> and <https://www.whois.com/whois/seyboldreport.net> . The result is that the Seyboldreport.org domain name is earlier than Seyboldreport.net and has more complete contact information
2. Check NSLOOKUP to see the A record and AAAA Record which is the translation of the domain name into an IP address, as well as showing the location of the Hosting, Server of the Website, it can be suspected that the website that displays the A Record and AAAA Record is checked at <https://www.nslookup.io/domains/seyboldreport.org/dns-records/> and <https://www.nslookup.io/domains/seyboldreport.net/dns-records/>. Seyboldreport.org results show

check at <https://www.similarweb.com/website/seyboldreport.org/#overview> and <https://www.similarweb.com/website/seyboldreport.net/#overview>. The results of seyboldreport.org webtraffic indicators are much better than seyboldreport.net

4. From the seyboldreport.net website, the issue's articles that are displayed and can be accessed directly are only from June 2022, and so on, for articles before June 2022 cannot be accessed directly because they are passworded. This seems to be in line because the domain name Seyboldreport.net was only registered in June 2022, check at

<https://www.whois.com/whois/seyboldreport.net>. The existence of an article published in June 2022 by seyboldreport.net needs to be checked further because it is not in line with web traffic information which shows that in June 2022 the number of unique visitors to seyboldreport.net is zero, check at <https://www.similarweb.com/website/seyboldreport.net/#overview>

5. Seyboldreport.org displays and can be accessed articles that have been published since November 2020 until now, even though the Seyboldreport.Org domain name was registered in May 2022, it can be assumed that Seyboldreport.Org continues the Seybold report on the publishing system. but why the articles start from November 2020 not from 2015, need to ask directly the seyboldreport.org administrator.

6. Online Journal Submission which provides various APC payment methods, not only bank transfers but also payments via PayPal, Credit cards are more credible than bank transfers only, and you must be very careful when asked to make payments using BitCoin. Seyboldreport.org provides APC payments via bank transfer and PayPal accounts. The method of payment for APC on the Seyboldreport.net website is unknown because information about how much APC and how to pay it was not found, and when I tried to send two emails to info@seyboldreport.net it failed and got a message 550 No Such User Here

Hopefully, it can help to make decisions and avoid Predatory Journal

Hi Scimago team

I have found that no answers been given when someone asking about the original url for Seybold Report website.

I also would like to ask, which one is the original website.

seyboldreport.org or seyboldreport.net?

Kindly clarify our doubts.

Respected sir,

Is all published research article indexed in scopus database and how much time it will be take.

reply

Melanie Ortiz 3 months ago

SCImago Team

Dear Ankur,

Thank you for contacting us. A paper will be considered as Scopus indexed as long as it has been published in the same period in which Scopus has indexed the journal. For this reason, we always recommend to consult the Scopus database directly to see the current status of a journal.

Dear Team,
Kindly clarify the official URL for the Seyboldreport journal publication.

<https://seyboldreport.org>

or

<https://seyboldreport.com>

as per the records found in our UGC records it is showing ".com" is the official website.
Please provide a clarity regarding this two domains, which would help many students they already published in your website. THanks

You need to put link of official website of each journal..cause as there is no official homepage mentioned here...lot of people create fake websites with this name and start accepting papers...

Its responsibility of scimago to ensure complete info on each journal is mentioned to stop this malpractices from happening.

Thanks,
MT

reply

Melanie Ortiz 2 years ago

SCImago Team

Dear MT,
Thank you for contacting us.
SCImago is continually updating the information related to the website of the journals available in our database. SJR is committed to help decision-making through scientometric indicators and is not responsible of the appearance of these fake websites. SCImago always has to verify the information related to the journals websites. If that information is not reliable or unfound, you'll find the message "Information not localized" in the Homepage Section.

Dear Shriram,

Thank you for contacting us.

We inform you that all the information referring to the website of this Journal is not available in our website (you'll see "Information not localized") due to the fact that we could not verify that information with absolute reliability.
We are permanently updating the website's information of the journals shown in SCImago Journal and Country Rank and we always check the official information by using several channels. However, it is a fact that the emergence of predatory journals is growing daily, for this reason, we always suggest our users consult the Bealls List before submitting any document and check the reliability of the journal's website.
