FINI-D-21-00793**"Is a correlation-based investment strategy beneficial for long-term international portfolio investors?"****Original Submission****Ignatius Roni Setyawan (Reviewer 2)**

Reviewer Recommendation Term:	Minor revisions
Transfer Authorization	Response
If this submission is transferred to another publication, do we have your consent to include your identifying information?	Yes
If this submission is transferred to another publication, do we have your consent to include your original review?	Yes
Custom Review Question(s):	Response
Publons Reviewer Recognition. Springer Nature can send verification of this review directly to Publons (a subsidiary of Clarivate Analytics). If you would like to take advantage of this service, please click on the "Yes" option below. Your name, email address, title of the reviewed manuscript, name of the journal, and date of your review submission (the "Review Data") will then be transmitted to Publons after the final decision on the manuscript has been made. If you have already registered at Publons, they will notify you of the receipt of this review and update your profile as per your settings and their policy. If you are not registered with Publons, you will receive an email from them asking you to register in order for them to be able to recognize your review on your new profile page. Publons may use the Review Data to generate derivative metadata for the benefit of Publons and you as a reviewer, carefully considering the sensitivity of such information. For example, Publons may verify your record as a reviewer by updating your profile published on its webservice if you have registered for such service or help editors to identify candidate reviewers. Please find the details of processing in Publons' privacy policy https://publons.com/about/terms	Yes
Level of interest Please indicate how interesting you found the manuscript:	An article of importance in its field
Quality of written English Please indicate the quality of language in the manuscript:	Acceptable
Declaration of competing interests Please complete a declaration of competing interests, considering the following questions: 1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?	'I declare that I have no competing interests' below for point 1-6.

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?
4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?
5. Do you have any other financial competing interests?
6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

Comments to Editor:

this article can be published with improvements to the points below:

1. Abstract can be added at the beginning of the sentence before the research objective.
2. The 3 proposed contributions are good, but keep in mind that the use of unconditional correlation; MSCI's regional portfolio of other countries and the use of cointegration panels are not new. Please explain the author.
3. The use of colors such as yellow to blue in the portfolio has a basis. please explain the author.
4. Models 1-5 need an explanation of how they are derived mathematically.
5. Each article in the bibliography can be given a DOI.

SCOPE

Financial Innovation (FIN) provides a global academic forum for exchanging research findings across all fields in financial innovation in the era of electronic business. It seeks to promote interactions among researchers, policy-makers, and practitioners and foster research ideas on financial innovation in terms of new financial instruments as well as new financial technologies, markets, and institutions. Furthermore, this journal emphasizes emerging financial products, processes, and services that are enabled by the introduction of interruptive technologies. The journal is peer-reviewed and publishes both high-quality academic (theoretical or empirical) and practical papers in the broad ranges of financial innovation. Topical areas of interest include, but are not limited to: asset pricing, behavioral finance, big data analytics in finance, computational financial intelligence, corporate finance, derivative pricing and hedging, disruptive financial models, extreme risks and insurance, financial economics, financial engineering, financial instruments, financial intermediation, financial market, financial risk management and analysis, high frequency and algorithmic trading, household finance, innovative financial services, international finance,

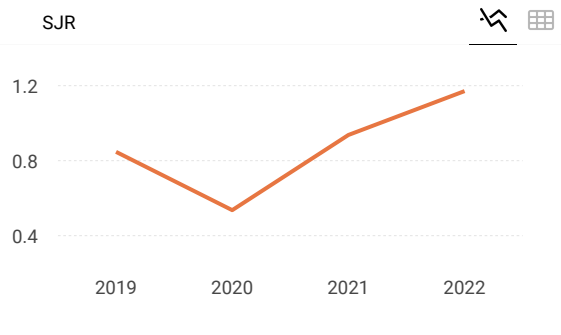

internet and mobile finance, legal and social issues of new finance, public finance and taxation, and other relevant topics. In particular, this journal especially welcomes research articles that study real-world impacts surrounding applications and management of blockchain, artificial intelligence, big data, Internet-of-Things, and other advanced computing such as 5G adoption in banking and other finance services.
