Dear Dyah Emy Herwindiati,

Your manuscript entitled "A Comparison of Two Deep Learning Models on The Stock Exchange Predictions" (Ms.Nr. IJASCA-2023-05-051) was reviewed by editorial board members of the International Journal of Advances in Soft Computing and Its Applications. As initial decision, your manuscript was found interesting but some revisions have to be made before it can reach a publishable value.

In order to proceed to publish your submission we will need you to submit the following:

- Your edited manuscript - please include all of the edits outlined in the attached file.
- Copy right agreement.
- The similarity less than 30%

You should send your revised manuscript journal e mail [ijasca@zuji.edu.jo](mailto:ijasca@zuji.edu.jo)

Sincerely yours,

IJASCA

=> Reviewer # 1

Title: its better to be:  
A Comparison of Two Deep Learning Models (long short-term memory (LSTM) networks and the gated recurrent unit (GRU)) on The Stock Exchange Predictions

good coverage for the topic

In abstract it mentioned machine learning, where the title is deep learning  
for example, last line in abstract: The experiment results show that the machine learning approach can be considered a good forecasting model  
I guess need to write deep learning, even though deep learning is part of machine learning

also in introduction the focus is on machine learning, so maybe need to change the title or focus more on deep learning the paper body

I suggest to add a section about concepts of : deep learning, time series forecasting, RNN,  
the text is already in the paper, but need to highlight a titles or subsecction for that

Need discuss about Recurrent Neural Networks (RNN) more, since long short-term memory (LSTM) networks and the gated recurrent unit (GRU) are examples of Recurrent Neural Networks (RNN)

The method section is very good, but need to have subsection:  
data preprocessing  
data visualization

Dear Dr. Dyah E Herwindiati, Janson Hendryli, and Nor Haniza Sarmin

We are pleased to inform you that your paper

Paper ID #: IJASCA202305051

Paper title: A Comparison of Two Deep Learning Models on The Stock Exchange Predictions

Authors: Dyah E Herwindiati, Janson Hendryli, and Nor Haniza Sarmin

Has been accepted for publication in the *International Journal of Advances in Soft Computing and Its Applications (IJASCA)*. The decision was based on the reviewers' evaluation reports. The paper will be published in Vol. 15, Issues 2 (July 2023).

Prof. Dyah Erny Herwindiati <dyahh@fti.untar.ac.id>

Jun 17, 2023, 10:11AM [Star] [Reply] [More]

to ijasca

Dear Professor IQBAL H. JEBRIL

How are you? I hope you are always healthy.  
 I am writing to you regarding the corrections in my final revised paper, which I sent last night.  
 This typo error has been found in writing the paper's submission date on the first page.  
 I have corrected this error according to the actual date.  
 I apologize for this error, and everything is ready to be published.  
 Thank you for your good cooperation

Best regards
