

Paper ID	:	
Title	:	Repair techniques in underwater pipelines for drinking water

**1. Abstract**

- Abstract summarizes the objective or scope of study  Weak  Satisfactory  Strong
- State the major conclusions drawn from the results  Weak  Satisfactory  Strong

Reviewer Notes :

**2. Introduction**

- Purpose/ goal/ importance of the study clearly stated  Weak  Satisfactory  Strong
- The approach to carrying out the study is briefly started  Weak  Satisfactory  Strong

Reviewer Notes : Please improve the English Grammar

**3. Designs and method**

- Quality of Study Methodology  Weak  Satisfactory  Strong
- Describes technical experiments and proposed methods of data analysis  Weak  Satisfactory  Strong

Reviewer Notes : Figures are not well presented

**4. Discussion**

- Overall context of the research is clearly stated  Weak  Satisfactory  Strong
- Explanation why original hypothesis is supported / not supported  Weak  Satisfactory  Strong
- Conclusions are drawn from the evidence of results  Weak  Satisfactory  Strong

Reviewer Notes :

**5. References**

- References appropriate and sufficient  Weak  Satisfactory  Strong
- Proper and consistent formatting and sequencing of references cited  Weak  Satisfactory  Strong

Reviewer Notes : Please follow the referencing style determined by the guidelines

**6. Recommendation:**

Accept  Minor revision  Major revision  Reject

**7. Comment**
